On Tuesday a long distance call was received for [REDACTED] from [REDACTED]. Since [REDACTED] was on a trip and I had become involved in the acquisition of photography for [REDACTED], I assumed that it might deal with this matter. I therefore called [REDACTED] and he pointed out that clearances for [REDACTED] had fallen thru to get into AMS. They therefore would like to obtain access to the Documents Library of ACSI in the Pentagon to look at Attache reports on Africa in support of the contract on keys they have with NPIC.
